This model's main functional features are:

- Double plastic panel
- Adjustable Current regulation
- Delay air Shutoff
- Panel gauge display
- Built-in air filter (Adjustable)
- Euro connector for Torch
- Low frequency arc
- Overload protected
- Dual Voltage 115/230V
- Small and Portable : 18 Pounds
- fully CSA/CAN Compliant

1 YEAR
Warranty*
(POWER SOURCE)

Technical information:

- DUAL VOLTAGE 110V ~ 230
- 1/4 INCH CUTTING CAPACITY ON MILD STEEL
- ADJUSTABLE AIR FILTER REGULATOR
- AIR FLOW PRESSURE -75PSI
- AIR FLOW RATE -6CFM
- 35% @ 30AMP DUTY CYCLE
- IP21S RATING FOR ENVIROMENTAL / SAFETY PROTECTION
- LOW FREQUENCY ARC STRIKING METHOD
- CENTRAL CONNECT 12 FT CUTTING TORCH
- EFFICIENCY -85%
- RATED INPUT POWER- 5.5KVA
- COOLING METHOD - FAN COOLED
- LIGHT WEIGHT - MACHINE ONLY WEIGHS 18 POUNDS
- COMPLIANT TO - CAN/CSA-E60974-1 / ANSI/IEC 60974-1

The new VIPERCUT30i Air Plasma machine is JASIC Technologies latest offering in Inverter Technology. Small and extremely efficient, it is one of the most portable single phase Inverter Cutting Machines on the market today. The machine comes with an adjustable Air-regulator, 12ft Viper torch, Adapter, return lead, starting consumable pack and an easy to understand operation Manual Plus a 12 month Warranty*.
